Cross Cultural Management (IN 303)
Source Requirement Review and APA Paper Guidelines
First Class Meeting

Source Review

The following information comes directly from your syllabus. A minimum of five sources is required for each paper/presentation. One source must be a scholarly, peer-reviewed journal article retrieved from Business Source Complete or Google Scholar.

Two sources must be retrieved from library resources: Business Insights: Global, EBSCO eBooks, Europa World Plus, or International Business Online.

Important Notes

Only one video will count toward the five-source minimum. Neither your mentor’s opinions nor Hofstede’s Cultural Website may count toward your five-source minimum.

The absence of one of these required sources will result in no credit for this part of the paper/presentation.

APA Paper Guidelines with APA Headings Information

All parts of the paper are double spaces.

Level 1 headings are used to introduce each section of the paper. Level 2 and Level 3 headings might be used.

In-text citations are required to identify borrowed information in the text of the paper.

Each in-text citation will be fully identified in a references list at the end of the paper.

APA Presentation Guidelines

In-text citations will be used on any slide that presents borrowed information. If the borrowed information appears in the presenter notes, the in-text citations should be used there.

Each in-text citation will be fully identified in a references list at the end of the paper.

Important iPad Note

iPads are not available to borrow after 1:00pm on days of presentations.
